

**Choong-Ang** has been,  
and will always be,  
the prestigious private high school.

**The name of our school “Choong-Ang”**

means ‘center’. We are proud that we have been in the ‘center’ of Korean education for 102 years producing the leaders of our country, and in the ‘center’ of this globalized world we are producing high class leaders in all walks of life.

**Choong-Ang High School** was founded in 1908 when Korea was under the oppressive rule of imperialist Japan. The school was founded on the belief that the only way to save the Korean people, and to pave the road to regain our independence and sovereignty, was through education.

Based on these nationalist goals for our school, we have produced a great number of leaders who actively participated in the independence movements on a variety of occasions. Since the liberation, with a great deal of hardwork, we have produced numerous prominent figures in domestic and international spheres such as politics, economics and society.
